OKLAHOMA ROCKS!

IS BACK WITH A LOOK AT ENERGY IN OKLAHOMA.

HEY, TEACHERS!

Sign up today to receive this exciting program that will give your students a scientific understanding of Oklahoma’s energy resources. The program will examine a number of Oklahoma’s energy resources including wind and solar power, coal, natural gas, oil and more!

The OKLAHOMA ROCKS! ENERGY Program is targeted to grades 7 through 12 and includes:

- Delivery of one classroom set (25 copies) of the printed Student Workbooks.
- Digital delivery of The Oklahoman containing each of six in-paper program lessons on Tuesdays from October 12 through November 16.
- Downloadable Teacher’s Guide.

This educational program is complimentary to schools. Registration for this program ends on October 8th.

YES! My class would like to participate in OKLAHOMA ROCKS!
