## Waterflood Workshop Text Available

If you missed the popular Waterflood Workshop presented June 10 and 11, the text material now is available from the OGS. The publication contains 171 pages and 172 figures, and comes in an easy-to-use three-ring binder. The text is by Kurt Rottmann, a consulting geologist from Oklahoma City, with contributions from a number of other people.

The topics include: evaluating preliminary reservoir data; analyzing production history; determining net pay; mapping net pay; structure; analogies; core and coring results; fractures; water supply; permitting; economic feasibility; and a reservoir model.

Special Publication 98-3, *Geological Considerations of Waterflooding: A Workshop*, is available for \$10, plus \$2 postage, from the OGS at the address below left. Purchases also can be made from the OGS sales office at 1218 B. West Rock Creek Road in Norman, (405/360-2886), or by e-mail at <[ogssales@ou.edu](mailto:ogssales@ou.edu)>.

The sessions were popular, with 68 people in the audience the first day and 57 the next; which demonstrates that there is a real need for this information. If you weren't able to attend, the workshop is planned to be repeated in southern Arkansas and in the Tulsa area later this year.

*Audience members listen attentively at the Waterflood Workshop.*

## Marty Named to Marginal Wells Commission Post

LaKeta J. Marty has been named director of operations at the Oklahoma Commission on Marginally Producing Oil and Gas Wells, Richard H. Chapman, executive director, announced recently. Marty formerly was executive administrator, and has been with the MWC since its creation in 1992.

The commission aids in the preservation of Oklahoma's more than 70,000 low-volume wells.

## Mark Your Calendar for Fall Workshops and Field Trips

Check the calendar below for new workshops, field trips, and a trade fair that will give petroleum operators a chance to participate in a number of valuable activities in the South Midcontinent Region. With a workshop on the Morrow Play, a new workshop on the Hartshorne and two follow-up field trips, the opportunities for learning will be great. Marginal Wells will present another of their successful trade fairs in Norman, Oklahoma, where you can meet and learn about business opportunities.

### FDD Morrow Play Workshop

A half-day version of the Morrow Play workshop will be presented on September 10, at the Home Builders Association in Oklahoma City. Sponsored by PTTTC, OGS, and the Oklahoma City Geological Society, this abbreviated version of the workshop will

cover the Morrow-specific material, but not the basic fluvial-dominated deltaic reservoir information that was given in the mornings at the full sessions.

To enroll, contact the OGS at 405/235-3648, ext. 40, or 405/236-8086.

### Hartshorne Workshops and Field Trips

The Hartshorne workshop, set for September 30 in Oklahoma City and November 4 in Muskogee, will contain information on natural gas and coalbed methane development in this active east-central Oklahoma play.

A two-day field trip, which will run both November 10–11 and 12–13, already is generating a great deal of interest—MAKE RESERVATIONS EARLY!

If you don't receive a flyer with more detailed information, call the OGS at 405/325-3031 or 800/330-3996, or check the OGS web site!

## Upcoming Events

### July

- 7/16 Due Diligence Workshop, Southeast Technology Center, Broken Arrow, \*MWC
- 7/28 Arkansas Oil and Gas Commission, Public Hearing: Hot Springs, AR
- 7/30 \*Oklahoma Marginal Wells Commission Meeting, Oklahoma City, Cowboy Hall of Fame

### August

- 8/4 Due Diligence Workshop, Holiday Inn, Enid, \*MWC
- 8/12 Operator's Roundtable, Pawhuska, \*MWC
- 8/25 Arkansas Oil and Gas Commission, Public Hearing: El Dorado, AR

### September

- 9/10 FDD Morrow Play Workshop, Oklahoma City, Oklahoma City Geological Society (405/235-3648, ext. 40 or 405/236-8086), and OGS
- 9/22 Arkansas Oil and Gas Commission, Public Hearing: Hot Springs, AR
- 9/24-25 Marginal Wells Commission Retreat, Lake Murray Resort, Ardmore, \*MWC
- 9/30 Hartshorne Workshop, Francis Tuttle Vo-Tech, Oklahoma City, \*OGS

### October

- 10/8 Advanced Plunger Lift Workshop, Duncan, \*MWC
- 10/15 Petroleum Industry Trade Fair, Norman, \*MWC
- 10/27 Arkansas Oil and Gas Commission, Public Hearing: Fort Smith, AR

### November

- 11/4 Hartshorne Workshop, Indian Capitol Area VoTech, Muskogee, \*OGS
- 11/10-11 Hartshorne Field Trip, McAlester, \*OGS
- 11/12-13 Hartshorne Field Trip, McAlester, \*OGS

\*OGS=Oklahoma Geological Survey, 405/325-3031 or 800/330-3996

\*MWC=Marginal Wells Commission, 405/366-8688; 800-390-0460
